

Industrial energy storage battery 510 kWh

Industrial energy storage battery 510 kWh

EnSmart Power 's Smart ESS 500 is an All-in-one, containerized turn key, modular energy storage system designed for density industry and public utilities. The system integrates Battery, BMS PCS, HVAC, fire extinguishing system and EMS systems. All components for battery storage, system operation and grid connection is pre-assembled for a plug and play use can meet the battery storage requirements up to 1013kWh in one 20feet container itable for various applications such as peak shaving, frequency regulation, EV Charging, Solar + Storage, Micro-Grid.

All-in-one containerized ESS for industrial applicationsPre-engineered fully integratedPlug and playIP54 Outdoor with fire suppression and HVAC systemWide Battery DC Voltage RangeModular design easy expansion up to 10 unitsMaximum safety with Tier 1 lithium battery cellsLong lifespan with over 10000 cycles and 15 years design life
