Received 2020 Feb 27; Revised 2020 Jul 4; Accepted 2020 Aug 5; Issue date 2021 Jan 10.

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website. Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

Keywords: Electricity shortage, Feed in tariff, Feasibility analysis, Libya, Non-wires alternative, Solar generation

Geopolitical map of Libya (UN, 2015).

Sankey diagram of electricity consumption per sector (GECOL, 2012).
