

Israel hydrogen energy storage

Israel hydrogen energy storage

In addition to the company's huge portfolio of profitable PV and storage projects, Doral is building the first green hydrogen production facility in Israel and is a pioneer and leader in the field of investments in clean-tech via its investment arm Doral Energy-Tech Ventures.

The company provides electricity to major businesses and is the country's largest and leading provider of green electricity.

The Doral Group is the leading developer and builder of solar energy and energy storage systems in Israel.

By partnering with leading players in the local and global solar market, Doral promotes significant projects in Denmark.

As one of Romania's pioneering companies in renewable energy, Doral currently owns an impressive portfolio of solar projects. There are many opportunities for business development in the country, leading the company to rapidly grow.

Doral promotes solar and agri-voltaic projects in Italy, where the renewable energy field offers many opportunities to integrate into the local market. Having several activity channels creates a path for prosperity in the local market for the company.

One of Doral's earliest European markets. The company won several tenders within a short time and is now in the midst of a construction boom throughout the country, both developing parts of the portfolio by itself and with local partners.

Doral's American energy activities are conducted through Doral Renewables LLC. Doral Renewables LLC is developing dozens of projects in more than 10 countries, including the 1.6 gigawatt Mammoth Solar project.

Green electricity production so far about 565 GWh

We reduced about 222 thousand tons of carbon dioxide

Equivalent to 6.6 million trees planted

Leading experts discussed the future of energy in Israel: everything from investments and financing to development and regulation. The conference was held by Doral and Globes
