Charge your EV faster, smarter, cleaner

Quick-release mounting bracket and integrated cable management make set up and daily charging a breeze

25 feet of cable gives you maximum freedom to install your electric car charger wherever needed. Convenient rack lets you store your electric vehicle charger's cable neatly.

Locking mount ensures secure installation of your Level 2 charging station, indoors and out. Our JuiceBox Level 2 charging stations are designed for all weather conditions, and are UL certified and tested for safety and durability.
