Simple Energy team provides the vision that has propelled us from a small solar company to a worldwide diversified leader in a remarkably short period of time.

SEPL offers its clients a unique financing mechanism to install solar rooftop grid connected system.

Renewable Energy as a Service (RESCO) model is popular globally but in Nepal SUN, one of SEPL's share holders pioneered it.

???????? ???? ???? ???? ? ? ???? ???? AEPC/CREF ? ? ???? ???? ???? ?

Alternative Energy Promotion Centre (AEPC) has established a Viability Gap Funding based Sustainable Energy Challenge Fund (SECF) under the Central Renewable Energy Fund (CREF). Nepal Renewable Energy Programme (NREP) is a Government of Nepal (GoN) programme with funding support from UK-Aid dedicated to increasing private sector investment in distributed sustainable energy (DSE) and increasing universal energy access, while facilitating policy, planning, legal construct, and regulatory environment conducive to both enabling and sustaining progress in DSE market development. SECF provides financial and technical assistance to the DSE projects to ascertain their financial viability and ensure sustainable operation of approved projects.

With this notice, AEPC/CREF invites all eligible applicants to submit Concept Notes via online application portal: Until further notice, this is to inform that the concept notes for only the following SECF windows will be accepted till the prescribed dates
