

Lifepo4 16s 48v bms

Lifepo4 16s 48v bms

DALY BMS LiFePO4 16S 48V 100A common port battery protection module(not for li-ion/NMC cells)
WITH 17 wire sense cable with connector

Introduction about this BMS:

This is a 16S fixed configuration basically it cannot be used for any other battery pack configurations. Because it is only a lithium iron phosphate battery management system only. As a result that they cannot be used for Li-Ion, Li-Metal or LTO batteries is strictly for LiFePo4 battery packs only.

Over charge and over discharge protection:

In high temperatures the bms ranges from 70° discharging battery protection.

Meanwhile in low temperatures the bms ranges up to -20° battery protection.

Short circuit protection:

When there is a defect or damage to the circuit at same time the bms will shut down the whole Battery.

Certifications Approved:

ISO/ FCC/ RoHS/ PSE and CE APPROVED

Most important that it is only a waterproof bms available in lithium industry.

This BMS is also for all kinds of lithium-ion cells including 18650,21700,36500 cylindrical cells and prismatic cells.
