

# Lithium 12v battery charger

## Lithium 12v battery charger

One Set Button intuitive programming for Charger and DC source Mode. The programmable charger design for Lithium base batteries with constant monitoring of the battery state so that it can be connected to the battery at all times. Selectable for Lithium Ion group (NMC, NVA, LCO, LMO) and LiFePo4 type battery or DC Source Mode. Soft Start charging to ensure gentle initial charging of deeply depleted batteries and charger will return to normal charging once battery state of charge picks up. 10%/ 25%/ 50%/ 100% Max Charging Current selections allow an optimal charging current for a wider range of battery capacities.

### 4 Stage Charging Profile

The maximum time period for Absorption Charge or end of Boost Charge prevents abnormal or faulty batteries continuously drawing current from the charger under high voltage condition. The Float Charge can be set to ON/ OFF to cover various BMS (battery management system) and operating conditions of the battery. Thermo fan cooling and works with supplied battery temperature sensor for high temperature limiting charge current to 3A at 60°C self recoverable when temperature returns to about 45°C. Low Temperature Protection : at minus 2°C charge current drops to 3A and returns to normal at minus 0.5°C.

### Construction, Protection and Additional Features

WiFi or Bluetooth Connectivity: Only for models with preinstalled optional WiFi or Bluetooth feature. Available APP via Android or Apple phone; Output Voltage, Current, Charging Status, Battery type select or Power Supply Mode are displayed on the phone.

Buy with confidence with our competitive, no-nonsense 11-year warranty.

Ionic uses the best cells so your battery lasts longer and performs better.

Monitor your charge at any time from our user-friendly Ionic mobile app.

Ionic batteries are 100% compatible and safe with Yamaha and Mercury motors.

Our Lithium LiFePO4 batteries bring you revolutionary technology ahead of its time. As the creators of the Ionic brand, we combine powerful lithium, Grade A battery cells, and Bluetooth monitoring for a battery that lasts longer, works harder and plays smarter. With LithiumHub, you're guaranteed 100% US-based support, plus a competitive, no-nonsense 11-year warranty. Explore our collection today to experience the latest in marine battery technology.

Charge individual 12 volt batteries with these single chargers.

## Lithium 12v battery charger

Need some help determining exactly which batteries you need for your bass boat, RV, scooter, or other application? Let our lithium battery experts help you find the right battery.
