Key stakeholders involved in the LTES Network are:

The LTES Network focuses and aims to benefit members in the institutional aspects around three areas:

The LTES Network is built on the “Long-Term Energy Scenarios for the Clean Energy Transition Initiative” – a time-bound Initiative that IRENA has run since 2018 under the umbrella of the Clean Energy Ministerial (CEM).

Members of the LTES Network are given the opportunity to engage with the IRENA’s programmatic activities that include, but are not limited to:

Formal membership in the LTES Network is free of charge and open to both government institutions responsible for the development of official scenarios, as well as technical institutions that support governments in the development and use of such scenarios.
