

Luxembourg lithium-ion batteries

Luxembourg lithium-ion batteries

Les Frontaliers: Signed for the first lithium battery factory in Luxembourg. The ...

Reducing our impact on the planet requires too many compromises. We use supermaterials to build simply better products. Lighter. Stronger. Lower Cost. AND Cleaner.

We use supermaterials to build products that transform the biggest industries on the planet.

More Energy Dense. Lightweight. Local Materials. Local Manufacturing.

A New Way of Sensing. Massively Distributed.

Increased Strength. Reduced Carbon Footprint.

Lyten is a supermaterial applications company. We are the pioneer in Three-Dimensional Graphene, a supermaterial that can be infinitely tuned to exhibit a unique combination of disruptive properties. We use 3D Graphene's properties to build products that address some of industry's greatest challenges. Greater strength. Lighter weight. Increased conductivity. Reduced carbon footprint. And so much more.

Patents Granted and Pending

Lyten is using supermaterials to enable even the highest emitting industries to progress towards net zero, without compromising performance, profitability, or customer experience.

Our mission is to enable economic growth without emissions growth in every economy across the planet.
