

Ngerulmud electricity consumption

This article focuses on the quantity of energy we consume -- looking at total energy and electricity consumption; how countries compare when we look at this per person; and how energy consumption is changing over time.

List of countries by electricity consumption. By 2025, Asia is projected to account for half of the world's electricity consumption, with one-third of global electricity to be consumed in China. [1] This list of countries by electric energy consumption is mostly based on the Energy Information Administration. [2]

note: Ngerulmud, on Babeldaob Island, is the smallest national capital on earth by population, with only a few hundred people; the name is pronounced en-jer-al-mud; Koror, on Koror Island, with over 11,000 residents is by far the largest settlement in Palau; it served as the country's capital from independence in 1994 to 2006

Ngerulmud (Palauan pronunciation: [nɛrʉlmu]) is the seat of government of the Republic of Palau, an island nation in the Pacific Ocean. It replaced Koror City as a capital in 2006.

Year-to-year change in primary energy consumption by source. Year-to-year change in primary energy consumption from fossil fuels vs. low-carbon energy. Year-to-year percentage change in primary energy consumption. Years of fossil fuel reserves left.

?, 2019, $6.17 \times 10^{20} \text{ J}$
