Smart Export Guarantee (SEG) rates in the UK allow solar panel owners to earn money by selling electricity back to the grid. The best SEG tariff currently available is Octopus Energy's Intelligent Octopus Flux, which provides up to 30.31p/kWh for customers with solar panels and compatible batteries.

This tariff stands out in SEG tariff comparisons as one of the best export tariffs for solar panel owners. For example, by taking advantage of the SEG on top of the savings provided by a 4kW solar system with a 10.8p tariff rate alone, you can save up to ?830 per year.

This article explores the best SEG rates in the UK and provides detailed information about top suppliers. We'll cover essential aspects such as rates and potential annual savings for each provider. Our comprehensive guide aims to help you understand your options. However, if you still have questions after reading, we recommend consulting a reliable specialist for personalised advice tailored to your situation.

Fortunately, with our service, finding a reliable professional and comparing quotes couldn't be easier. Just fill in our short 30-second form, and we'll connect you with up to 4 local solar panel suppliers. Spare yourself the hassle of endless googling, and just click below to get started--it's quick, simple, and completely free!

Octopus Energy's Intelligent Octopus Flux offers the best SEG tariff in the UK at 30.31p/kWh during peak hours (4-7 pm). The best tariff may vary based on individual circumstances, such as having a battery storage system or an electric vehicle.

Therefore, who pays the best SEG tariff? Octopus leads, but other providers, like Good Energy's Solar Savings Exclusive at 20p/kWh and OVO's SEG Tariff Exclusive at 20p/kWh, also offer competitive rates.

Here's a comprehensive table of SEG rates from various UK energy suppliers, ranked from highest to lowest:

For instance, ScottishPower's SmartGen and British Gas Export & Earn Flex SEG tariffs emerge as the best SEG tariffs in the UK for those seeking the best export tariff without switching suppliers.

When conducting an SEG tariff comparison, consider factors like solar battery compatibility and payment
