

Office energy storage sri jayawardenepura kotte

15, 24 3rd Lane, Sri Jayawardenepura Kotte, Sri Lanka

803, L-Tower, 17, Ahasan-ro, Seongdong-gu, Seoul, Republic of Korea

Settle your business in Sri Jayawardenepura Kotte's emerging hub, Se Saya Poshtel and Bistro - a dynamic office space where business meets style. Designed around a unique work, live and play concept, our vibrant workspace redefines flexible workspaces by combining two floors of premium office facilities with three floors of deluxe hotel rooms, one floor of dormitory-style rooms and a rooftop restaurant and bistro. Just 16km from Colombo International Airport and 1.5km from Cotta Road Train Station, this well-connected workspace is more than just an office, it's somewhere to thrive, connect and unwind all under one roof whether you're a solo worker or part of a larger team.

Welcome your clients to a sleek, modern office designed for productivity and comfort at Se Saya Poshtel and Bistro. Collaborate with a fresh new network of talented individuals as you settle into open-plan coworking spaces flooded with natural light and furnished for focus. Kickstart your day with a fresh coffee from our fully stocked kitchen and complete work efficiently as you plug into business-grade WiFi to keep you connected. Visit the on-site restaurant and bistro for a bite to eat after work. Impress clients from the start with stylish reception space, state-of-the-art meeting rooms and plenty of nearby spaces for entertainment and leisure.

Place is really nice.. I was there for a Hot Desk for one day.. It was really cool experience I had there.. Owner is super friendly and attire is really calm and clean, very relaxing.. Top of all, price is super reasonable.. Nothing to complain at all.. Will recommend to anyone who looking for a change of phase in day to day work life.. If I got chance in future I'll not think twice to go back..

The place is renting office space. Even a single person can go work there an pay for the chair. There are very few people offering this service in Colombo. If you have an important meeting with a client, you just book the place and schedule your meeting.

The main thing that impressed me about this building is, it's very easy to access, also the building is a newly constructed one. It made a fresh change in my job as well. The attractively designed lobby brings a fresh experience to my guests. Also, the roof top is one of my favorite places. The surroundings, specially the sunset is a great sight. Also the friendly and loyal service staff, always committed to our needs. Really appreciate it.

Such a aesthetic place to work from and very Elegant. As much as it's bright walls and amazing spaces make it a great place to get work done from, it's also very much homely with the comfort it provides, the swift support and accommodations by the building manager, the always clean and well maintained spaces. Clients

and Guests are always so amazed with our office space and all thanks to Elegance Workspaces!

Clean and modern building. Not enough space for car parking.

A space created with the most conducive and motivating environment. Hats off to the team! Very delighted to work in this place. Highly recommended.

The best co-working space I have been so far with an amazing environment. So relaxing even though it's a working environment. Good job in designing the working areas.

Rajagiriya's newest co-sharing office experience. 4 floors of office space fitted out with luxurious fittings and amenities. The ground floor has a reception and very comfortable relaxing area. Conference room seats around 20. Limited parking but the adjoining road has plenty of space.
