

Photovoltaic pv systems belize

Photovoltaic pv systems belize

High quality components is a given. As a total company, we advise, plan and install photovoltaic systems and provide solutions for storage systems, charging stations for e-mobility and other optimization options (emergency power supply, self-consumption optimization, etc.). We also pay a great deal of attention to aesthetics of the systems and specializes in the installation of integrated solar systems, which also serve as a roof shell or facade.

With us you have a strong partner at your side. From planning to implementation and subsequent service, we offer everything from a single source.

Come visit us at our showroom and see firsthand.

Address: Placencia, Stann Creek, Belize

Want to reduce or cut your electricity bill? Then install Solar Panel systems for your Home, Business, Commercial or Agricultural operation.

There are 3 types of Solar Panel Systems: Off Grid systems, Grid Integrated Systems and Grid Tied Systems. (See details of each below)

Solar or Photovoltaic (PV) Systems are custom-designed to meet your Residential, Commercial or Agricultural Power needs. All systems are designed using high-performance components manufactured to withstand Belize's demanding climate, guaranteeing that your investment is worthwhile and rewarding.

Solar panels are now durable, more efficient and more affordable! They carry a life spans of up to 25 to 30 years. Batteries have also improved with lifespans of up to 8 years (Lead Acid) and with newer Battery technologies equally achieving lifespans of up to 15 years. (Lithium)

Off-Grid Solar Systems are Solar Panel Systems which are completely disconnected from BEL's Electricity Grid system.

Off Grid Solar Systems are completely self-contained and self-sufficient, providing Homes, Hotels, Resorts, and Farms etc.

with the electricity you need, 24 hours a day.
