

Piller flywheel

Piller flywheel

Critical Power Module (CPM) with Flywheel 225kW to 2.4MW. CleanSource® - Static ...

Piller power technology protects the world's critical infrastructure.

Established in 1909, Piller Power Systems is Europe's leading producer of uninterruptible power supply (UPS) systems for mission-critical power applications such as data centres and semiconductor manufacturing. Piller also manufactures ground power systems for civil and military airports and on-board electrical systems for naval vessels.

Piller is part of Langley Holdings Power Solutions Division focused on the development of hybrid-renewable microgrids in collaboration with Bergen Engines AS and Marelli Motori Srl, all Langley subsidiaries.

Acquired by Langley in 2004, Piller is headquartered in Osterode am Harz, near Hanover, in Germany. In 2016 Piller acquired Active Power, the Texas-based flywheel UPS specialist.

Langley Holdings' Power Solutions Division develops hybrid-renewable microgrids through a collaboration between sister companies Bergen Engines, Marelli Motori and Piller Power Systems. The aim is to efficiently and cost-effectively meet immediate and future microgrid requirements while reducing emissions to a minimum.

We develop and deliver complex power solutions.

Piller raises the game in scale, reliability and availability of power provision and protection for multiple sectors.

Uniquely in the power market Piller in-house teams control every aspect of development, design and manufacture of UPS systems, stabilisers; static transfer switches; kinetic energy storage; aircraft ground power systems; frequency converters and naval power supplies.

We supply premium-level customer support to match the unrivalled excellence of our products. With a global network of highly qualified service staff, Piller technicians are currently taking care of around 10,000 units of high power UPS equipment in over 50 countries, supporting client activities in data processing, finance, industry, communications, aviation and defence, 24 hours a day, 365 days a year.
