

Plug-in electric vehicles phev dublin

Toyota and Lexus plug-in hybrid electric vehicles (PHEVs) offer the best of both worlds - true EV capability and highly efficient full hybrid power. Our technology delivers all the benefits of our PHEVs line-up but with greater performance and the ability to travel further on pure electric drive. Charged from an electricity supply at home or at a charging point, they provide power in pure EV mode on zero tailpipe emissions and using no fuel. For longer trips, our PHEVs switch seamlessly to their efficient hybrid petrol-electric system.

Our plug-in hybrids are different from many other brands. When our PHEVs require additional power or the electric charge is depleted, the vehicle changes to Toyota's full hybrid electric vehicle mode, ensuring that it retains high efficiency and low CO2 emissions. Depending on the usage and driving style of the driver, our PHEVs can achieve very low CO2 emissions. As an example, our RAV4 PHEV delivers only 22 g/km CO2 emissions and has an EV range of 75 km.

As Ireland witnesses a surge in eco-conscious driving, plug-in hybrid cars have emerged as a leading choice for those seeking a sustainable and efficient mode of transportation. As we journey towards 2024, the demand for eco-friendly options has seen a notable rise, with drivers increasingly considering plug-in hybrids as a viable and green alternative. Our commitment as a leading provider of electric car insurance reflects an understanding of the unique needs of plug-in hybrid owners. In this comprehensive guide, we'll explore the world of hybrid cars, discussing their unique advantages and spotlighting five of the best plug-in hybrid cars available in Ireland.

Owning a plug-in hybrid car in Ireland is a strategic move towards a more sustainable and eco-friendly driving experience. As these vehicles gain popularity, it's essential to understand the myriad benefits they offer:

Plug-in hybrids significantly reduce carbon emissions and contribute to a cleaner environment, making them an ideal choice for environmentally conscious drivers.

Ireland encourages the adoption of green vehicles through various incentives, such as reduced motor tax and grants. Plug-in hybrid owners can take advantage of these benefits.

With fewer visits to the gas station and lower maintenance costs, owning a plug-in hybrid can be budget-friendly in the long run.

Pro tip: If you want to save money and reduce your carbon footprint at home, read about Ireland's Electricity Cost Calculator.

Plug-in hybrids can operate in electric-only mode for short commutes, offering a convenient solution for daily

trips while maintaining the flexibility of a traditional engine for longer journeys.

The Mercedes C 300 e seamlessly combines luxury with eco-conscious engineering. With its plug-in hybrid system, this sedan allows for emission-free electric driving and provides a dynamic performance when the petrol engine kicks in. The high-quality interior, advanced technology features, and the prestigious Mercedes-Benz experience make the C 300 e a standout choice for those who prioritise both elegance and sustainability.

The Toyota Corolla has been a household name for decades, and its hybrid variant continues the tradition of reliability and fuel efficiency. The hybrid powertrain enhances the Corolla's eco-friendly profile, making it an excellent choice for urban commuting. With a sleek design, advanced safety features, and the legendary dependability of the Toyota brand, the Corolla remains one of the best picks for those seeking a practical and efficient plug-in hybrid in Ireland. It's no wonder the Corolla is one of the most popular cars in Ireland.

Lexus brings sophistication to the plug-in hybrid realm with the NX 450h+. This luxury SUV combines a powerful hybrid system with a lavish interior and cutting-edge technology. The NX 450h+ stands out with its sleek design, crafted details, and commitment to a smooth and efficient driving experience. For those who desire opulence without compromising on environmental responsibility, the Lexus NX 450h+ is a perfect fit.
