Home>Car News and Tips>Car Technology>Mitsubishi Outlander PHEV

The Mitsubishi Outlander PHEV is the world's first plug-in hybrid SUV and it aims to tap into the growing electric/hybrid market. Hybrid cars have been making a steady entry into the Kenyan market but electric cars are yet to find acceptance. This is not a consumer problem per se but a lack of infrastructure and lack of government incentives. In other countries, electric cars attract much lower taxes than fuel burners but in Kenya this incentive is non-existent or at best negligible. If you want to sell or trade-in your vehicle, you can list it for free via our seller portal.

If you wish to purchase this model local or abroad, you can do that via our marketplace.

With its sleek lines and futuristic flair, the KONA Electric's sporty character is underscored by the body-coloured wheel arch cladding, building on the iconic design identity of the first KONA.

The dynamic styling of KONA Electric is accentuated with boldly sculpted body-colored wheel arch cladding that incorporates the headlamps and taillamps for a rugged look. Sharp diagonal parametric surfaces harmonize with the satin chrome molding that slices through the belt line.

The pure, distinctive front end is highlighted by a unique Pixelated Seamless Horizon Lamp, arching elegantly across the entire bonnet for a more dynamic road presence.

Mirroring the front for a harmonious overall look, the rear Pixelated Seamless Horizon Lamp rounds out a unique LED lighting signature that really sets the all-new KONA Electric apart from the crowd.

17" two-tone Carbon Gray alloy wheels: a perfect balance between style and functionality.

Designed to fit everything you and your busy life can throw at it, the KONA Electric offers plenty of room for passengers and cargo. This bold, upscaled SUV now gives you a larger living space for all your adventures.
