5-Year White Glove Warranty and Money-Back Guarantee

Introducing Apollo 5K(TM)

Simple and effective backup, off-grid, and mobile power solutions.

From "Critical Load" to Full-Home Backup Solutions.

Lifetime Customer Service

Quickly charge up your solar panels with the sun on any day, even on cloudy days.

Hysolis is a high quality, all-in-one power station designed to store power from the sun so that you can take care of your family and power your home, off-grid sanctuary, and more. Power that keeps on giving.

Scale up the system to meet your power needs. You can power (almost) everything you need: a refrigerator, a laptop, lights, or medical devices like a CPAP. Calculate the size of your system here or call an expert.

We love our Hysolis systems! Our SPS6K powers our entire farm house. We also have a smaller unit which powers our well pump. Our customer experience has been excellent. The representative I spoke with is a champ! We had some installation issues and he helped us from across the country! We highly recommend the company and their products.

We purchased the Hysolis MPS3K because after much study, we could see it was the best of the big solar generators being offered. We already had a Bluetti AC200P. Nice, but not powerful enough to power all our appliances. We live completely off the grid. So, having a reliable power system is of utmost importance. The Hysolis MPS3K easily powers all. We are very happy with the amazing amount of reliable power the Hysolis MPS3K has provided for us. Thank you Hysolis!!"

I can't say enough about the customer support that I received. Every time I had a question I got an answer very quickly... I have had it out for multiple nights giving this solar generator a full test. Not only did it outperform and give me the energy that I need but it regained its strength at super fast speeds. I plan on purchasing more in the future. And I fully recommend the Hysolis MPS3K as a solution for your mobile power needs!"
