Get expert advice, dedicated support, and personalized guidance from business specialists. With Business Assist, get help making Microsoft 365 products work for you and everyone in your business.

Before you begin, make sure your PC or Mac meets the system requirements.

If you already redeemed a product key, you're simply reinstalling the apps, or you know you have an assigned license through work or school, you can skip ahead and go to the section sign in to download and install Microsoft 365 or Office. However, if this is the first time you're installing Microsoft 365 or Office, you may have some steps to do first. Expand the Learn more section below for more info.

If this is the first time you're installing Microsoft 365 or Office, you may have to complete a set of pre-installation steps or you may need to follow different steps than what's shown below. What you do depends on if your copy of Microsoft 365 or Office is a home or a business product and whether or not you have a product key that you still need to redeem, an account already associated with your product, or a pre-assigned license.

Go to office /setup and sign in with an existing or new Microsoft account and then enter your product key to redeem it\*. Redeeming your key is what adds your Microsoft 365 or Office license to your Microsoft account, and you only have to do this once per product key. If you're renewing a Microsoft 365 subscription with a new product key, use the same Microsoft account you previously associated with your expired version subscription.

Microsoft 365 for business

If your business subscription plan includes the desktop version of the Microsoft 365 apps you won't see an option to install it unless someone in your organization assigned a license to you.

Learn how to check this in What Microsoft 365 business product or license do I have? or if you're a Microsoft 365 admin responsible for assigning licenses to people in your organization, see Assign licenses to users.

## Powerpoint download windows 10

Some versions of Microsoft 365 such as Office Professional Plus, Office Standard, or a stand-alone app such as Word or Project don't have an associated Microsoft account, or work or school account.
