The PureStorage II Battery is a 5kWh battery module from Puredrive Energy. It uses the safest and highest performing lithium-iron-phosphate battery cells, with 1C operation, 10,000 cycles and a high charge and discharge rate capability.

Incorporating a modular design and allowing 5x 5kWh batteries to be connected together in a single system, this Puredrive 5kWh battery module provides a high level of scalability. It is also IP65 rated and boasts a simple, aesthetically pleasing design. These features combined ensures this is an ideal solar battery for domestic installations.

Have a large scale/commercial project? Please contact us for advice and pricing!

Install up to 5x Puredrive 5kWh battery modules for up to 25kWh battery storage, plenty for most domestic installations!
