With an electric range of up to 117km, Range Rover electric hybrid, for example, can cover most of your shorter daily journeys from a single charge and with zero tailpipe emissions. As electricity is typically cheaper per kilometre, it could also save you money along the way.

Top driving range of up to 481 km. With Hyundai's cutting-edge smart tech, IONIQ 5 delivers a range up to 481 kilometers when equipped with rear wheel drive and the Long Range battery. Top speed 185 km/h. The IONIQ 5 offers excellent driving dynamics and sporty performance with a top speed of 185 km/h.

The MG 4 Electric is a modern, urban hatchback that offers a range of 365KM, 465km, and 530KM (WLTP), making it perfect for daily commutes, weekend getaways, and even long road trips. With a state-of-the-art design and smart technology, it blends an expressive exterior with a minimalist interior to create an electric vehicle with no compromises.

Range. The WLTP standard can be useful in comparing ranges among electric vehicles. Ranges listed as "estimate" or "est.," like those under wheel and seating selections, if available, are estimations based on your chosen configuration. Actual range may vary based on factors such as speed, weather conditions and elevation change.

Wherever the journey leads, life with electric power is boundless.

Adjust the settings in the range calculator below to explore electric hybrid range in real-world conditions.

Advertised figures allow drivers to compare one car to another in the same conditions. To enable this, all manufacturers test to the same WLTP (World Light Harmonised Test Procedure) and quote these figures.

Compared to the controlled conditions and temperatures of WLTP, in real-world conditions your range will differ based on factors including speed, outside temperatures and the weight you're carrying.

EV range is typically affected by real-world driving conditions. With access to home charging, range should rarely be an issue for local journeys, but there are still some simple ways you can maximise your EV range every day.
