Flexibly MWT - Home - Qatar Solar Energy

With more than 15 years of research and development with the board members in the solar photovoltaic industry, QSE has become the first vertically integrated PV manufacturer in the MENA region, producing silicon ingots, silicon wafer, PV cells up to the end product <<PV modules>>.

QSE manufactures the latest and the modernist PV technologies in the market, where highefficiency PV modules are manufactured with MWT and multi Bus-Bars technologies.

Moreover, QSE become one of the leading manufacturers of the other supporting components such as mounting structures, batteries, inverters, Charge controllers, and all other electronic devices in Qatar.

To provide a full chain-value to our esteemed customers, QSE has developed saving-energy DC appliances to work efficiently side-by-side with the solar PV systems.

To allocate our product in the solar applications properly, safely and efficiently; QSE has evolved into one of the regions most experienced downstream solar companies, specializing in development, finance, delivery and O& M of high-performance solar systems for commercial and industrial applications and utility-scale power.
