

# Renogy 1000 watt power inverter

Renogy 1000 watt power inverter

LED indicator to easily monitor the operation status:

\*Red - powering down due to overheating, overload, under-voltage or over-voltage.

Optimized for 12 VDC system voltage and work perfectly with all type of batteries.

Thermally controlled, high-speed ventilation fans to help keep the inverter running at a low temperature

Both terminals are equipped with caps to ensure your safety.

This inverter comes with a 16.4ft wired remote control and 4AWG inverter cables.

Compact design with 13.4 x 7.6 x 2.8 in and 7.5lb will be perfectly fit to limited spaces.

Advanced pure sine wave technology provides power in a way that will protect and extend the life of your electronics and appliances.

The Renogy 1000W Pure Sine Wave Inverter (New Edition) featured a ECO Mode switch, it can automatically converses your energy when switched on.

When the output power is 50W or less, the inverter will in stand by mode. When higher power device connected, it will automatically power the load.

By integrating Renogy BT-2 with your DC Home app, you can enable intelligent energy monitoring that helps optimize energy usage, maximize your system"s performance, and ensure reliable power supply.

The Renogy 1000W Pure Sine Wave Inverter (New Edition) is featured with two High-speed ventilation fans allowing efficient and almost noiseless heat dissipation, maintaining cool working temperature for the device.
