Reliable, safe and fully compliant solar and battery backup solutions.

Reliable, safe and fully compliant solar and battery backup solutions for your home.

Turnkey solar systems for businesses, commercial buildings and industrial users, from energy needs analysis, engineering design, and regulatory approvals through to construction and long-term system management.

Pre-built containerized solar systems designed for both off-grid or hybrid applications particularly in remote areas. These systems are designed to reduce installation times and are customized to your needs.

Hassle free maintenance for your solar systems and generators, as well as professional panel cleaning solutions. Ensure your system remains safe while providing optimal year-round performance.

Solar systems for business are more than just a green initiative; they're a smart financial decision. With rising electricity costs, now is the time to lock in low, predictable energy costs for decades to come. Businesses that invest in solar power can benefit from significant savings on their energy bills, reducing operational costs and improving their bottom line.

Additionally, solar energy systems can enhance a company's reputation by showcasing its commitment to sustainability, attracting eco-conscious customers and partners.

Our Exosolar batteries use premium, first-use, A grade cells from top global LiFePO4 cell manufacturers. We offer market leading warranties of up to 12 years\* and 6500 cycles on our batteries.

Inverters are the heart of your solar system & everything must go through them. Our Deye inverters offer optimum performance for the tough South African load shedding environment.

South Africa is one of the best countries for solar in the world. Our 550W monocrystalline panels offer the highest efficiency and 25 year performance warranties.
