UNITED NATIONS DEVELOPMENT PROGRAMME

It is a pleasure and honour to join you this morning at this historic event to commission the solar energy installation in the Chiefly Island of Bau. This...

The Swiss Federal Office for the Environment and the Government of Vanuatu have authorized the first carbon reduction project in the South Pacific country of...

The Solomon Islands Government, through the Ministry of Mines, Energy and Rural Electrification (MMERE), Ministry of Environment, Climate Change, Disaster...

Public lighting has long been associated with safety. Before the advent of modern electricity, cities and communities ceased most activities at sunset. Despite...

Eagle Street, Lengakiki, Honiara, Solomon Islands

The MMERE as the Implementing Partner and Chairman of the SPIRES Project Board, shall coordinate to realize synergy and avoid duplication of efforts with implementers of various RE/EE and rural electrification projects funded by several organizations as listed in the Baseline Projects. This shall consider different objectives, timelines and focus of the related projects.

For those partners that have major involvement and shared resources and benefits, a co-financing arrangement for parallel activities will be formalized through a commitment letter. This will be backed up by an engagement plan and progress monitoring and evaluation (M& E) system consistent with the Annual Project Report/Project Implementation Review (APR/PIR) system of the UNDP and GEF to account for the utilization of GEF and co-financed resources mobilized by the project.

It is expected that for the procurements of technology suppliers for Activities 3.2.1 and 3.2.2 will follow the SIG procurement procedures, rules and regulations. Apart from multi-lateral and bilateral donor-funded projects, the MMERE and MECDM have implemented SIG-funded energy projects wherein the selection of

Rural microgrids solomon islands

technology suppliers was part of the implementation process. Most likely they will come up with a technical working group to evaluate the potential suppliers and the bidding will be through a central tender board under the Ministry of Finance and Treasury.
