

San jos 233 battery testing

San jos 233 battery testing

Our team of experienced and certified mechanics is dedicated to providing exceptional customer service and ensuring that your vehicle is running at its best. Whether you need routine maintenance, such as an oil change or tire rotation, or more extensive repairs, we've got you covered. Hybrid Battery Lab & Auto Repair understands that your vehicle is an important part of your daily life, which is why we strive to make the repair process as smooth and convenient as possible. We also provide competitive pricing, transparent estimates, and a quick turnaround time, so you can get back on the road with confidence.

At Hybrid Battery Lab & Auto Repair, we use the latest technology and equipment to diagnose and repair your vehicle's issues efficiently and effectively. We also stand behind our work with a guarantee, so you can trust that your vehicle is in good hands. Contact us today to schedule an appointment or stop by our shop to see why we're the premier choice for auto repair in San Jose, CA.

We have specialized technicians for a good job on your vehicle.

We have the best devices to detect faults in your vehicle

System test: computer diagnostic testing

Hybrid battery check: capacity analysis and insulation test

Auxiliary battery charging test

Cooling system check: analysis of system efficiency

We recommend conducting a health check every six months to keep your hybrid car running effectively and efficiently. On completion of a health check, customers will receive a full report on the condition of their hybrid car and its hybrid battery, as well as recommendations about further maintenance.

The performance of a hybrid battery depends on many individual battery cells. Over time, batteries begin to degrade and cells become out of sync with each other, affecting the overall performance of the battery pack.

Test and replace when necessary

Six mounths warranty on hybrid battery repairs
