

Smart grid conference 2023

The Organizing Committee is pleased to invite your participation in the 14th IEEE International Conference on Smart Grid Communications (SmartGridComm 2023). This conference aims to provide a forum for researchers and practitioners from academia, industry, government institutions, and regulators with background in communications, energy, control, signal processing, analytics and information systems to exchange ideas, explore enabling technologies and share experiences related to smart grids.

We look forward to sharing the innovative technologies and approaches being used to enable two-way energy and information flow, faster fault isolation and power outages restoration, renewable energy integration and consumer energy optimization tools as well as other smart grid applications.

Draft Program of ICSMARTGRID 2023(08.05.2023)
