Sol-Ark SA-Limitless-15K Hybrid All-in-One Hybrid Inverter. Parallel Stacking (1-12), ...

Order the Sol-Ark 15k all-in-one solar inverter!

Optional add-on in case larger pair of CT's are needed. The Sol-Ark 15k includes a pair of 300 Amp CT's.

The Sol-Ark 15k Hybrid Solar Inverter is an all-in-one pre-wired 120/240/208V inverter system with an outdoor case. Perfect for Grid-tied, Off-Grid, or 48V battery backup solar systems.

Need help? Call us or request a consultation for a proper design for your scenario.

200A passthrough, so there's no subpanel needed! This inverter is perfect for whole-home backup. Features and benefits include parallel stacking, grid sell, meter zero, time of use, smart load, AC coupling, & peak shaving.

The Sol-Ark 15k Outdoor Case is a pre-wired system that contains the inverter, charge controller, and more, all in one package; no fuses, breakers, or combiner boxes necessary! With minimal additional hardware required, your install stays simple and low-cost.

Sol-Ark inverters also do not have expensive battery restrictions like other solar inverters do, and can be used with a wide variety of 48V battery chemistries, from lead to lithium.

Proven to last well beyond the standard 10 year warranty

The best applications for the Sol-Ark 15k are off-grid, big gains, and time of use. For smaller scale systems, we highly recommend the Sol-ark 12k.

I would like to say this is the easiest inverter I have installed, it is so quiet and there is very few wires to use. I would recommend buying from Practical Preppers and watch his channel Engineer775. The manual is easy to read and the wire diagrams were very helpful. This inverter is powering about 65% of my home and is tied into the grid. I have 28 panels that produce close to 12,460 watts. I'm not selling back power to the grid because I'm using every Watt I produce. I still have more room in the SOL-ARK15 to add more panels and bring my production up to 80%. I bought inverter because I wanted to reduce my need on grid power. Lori was a great help in customer service with my questions.

They were very helpful with information. I was initially looking at the 12 K Solark, but it only had a 60 amp

Sol ark 15kw inverter price

grid power pass-through. I ended up going with the 15 K because it has a 200 amp grid power pass through. practical preppers also had one of the best prices on the Internet. I would highly recommend working with them. Shipping was very fast.
