Our company provides homeowners with a one-stop-shop for researching, purchasing, and installing advanced clean energy solutions, including electric solar panels, electric car chargers, geothermal heat pumps, and air-to-water heat pumps.

We offer fully designed, bespoke energy-efficient heating systems to installers, builders, contractors, architects and self-builders nationwide.

Refer us to your friends, tell them to include your full name on the quote request and we'll do the rest!

GreenHouse team did a really excellent job and surpassed my expectations in terms of the quality of the work done and their professionalism. Cabling was well thought through and none visible by the time they had finished. After sales service is second to none. No hesitation at all in recommending GreenHouse. Thanks all.

One of the best contractors I've dealt with in my 72 years. Very responsive from first contact until the job was done. Came on time, did what needed to be done very quickly and told me what I needed to know. Can't recommend all of them highly enough. Tom Farrell

Welcome to the Green House resource center, your go-to source for all things solar energy. At Green House, we believe that everyone should have access to clean, affordable, and reliable energy. That's why we specialize in the installation of solar photovoltaic (PV) systems for homes and businesses across the country.
