Solar energy for homes sri lanka

Solar Panel Maintenance & After Sales Services Hayleys Solar is one of the ...

Enjoy 24/7 access to electricity with our off-grid solar system in Sri Lanka. Skip to ...

Sri Lanka is one of the most expensive energy markets in the world. The use of solar can significantly reduce or eliminate your electricity bill as well as ensure an uninterrupted power supply. The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof.

Best choice when your bill is low and you have more roof space to generate more electricity than you consume.

Best choice when you are an industrial electricity consumer and when you cannot recover your electricity bill by solar, but still you have a large roof area such as a warehouse.

550W MBB in Half-cell Monocrystalline module

0.55% annual degradation over 25 years

The inverter comes with an inbuilt protection system for surge conditions. In addition to the inbuilt protection, we provide external protection system to enhance the system's protection level. The unit includes DC Disconnecting switch, DC Surge arrestors, AC surge arrestors and MCBs. The warranty for this unit is 1 year for manufacturing defects.
