Surrounded by countless farms and famous race tracks, Lexington has more than earned its reputation as the Horse Capital of the World. Horses are a part of everyday life here in Lexington, whether you're driving past Mill Ridge Farm or headed out to the races at Keeneland.

It's hard to believe that we have anything in greater abundance than our love for horses in Lexington, but if we had to choose, we'd say it's sunlight! Lexington has 190 days of sunshine per year, making it a great city for solar panels. Solar Energy Solutions is the trusted local solar installer in Lexington, KY and we can help you power your home, business, or horse farm with solar energy.

Residential solar panels are worth it for Kentucky homes! When you install solar in Lexington, you'll get benefits like:

Solar Energy Solutions can help you take advantage of all the benefits of solar panels for your home. We've been in business since 2006 and have installed over 2,500 solar panel systems! Whether you're looking for rooftop solar panels, ground-mounted solar panels, or a Tesla solar roof, we can design a custom system that's tailored to your needs and maximizes your savings.

If you own a business in Lexington, you should have solar panels! Commercial solar panels save your business money and qualify you for incentives like the 30% federal solar tax credit and MACRS depreciation. Agricultural operations and rural small businesses can also qualify for USDA REAP grants worth up to 50% of your total project costs in addition to the 30% tax credit and the MACRS depreciation!

With a commercial solar panel system from Solar Energy Solutions, you'll be able to cut your operating expenses and break even quickly.

We install commercial solar power systems for businesses and non-profits across all industries, including:

Solar batteries are an optional addition to any solar power system. They allow you to store the excess electricity your solar panels generate during the day and use it to power your home at any time. Solar battery

Solar energy solutions lexington ky

storage gives you access to solar power at night, on a cloudy day, or during a power outage.
