Energy Storage. To power your home during a PG& E power shutoff, lithium-ion ...

San Jose's residential electricity rates vs. the national average.²

The cost of solar panels in California have fallen 43% over the last five years.⁴ As battery storage prices have also plummeted,⁵ now could be a great time to make the switch with a San Jose solar company like Sunrun. If you go solar, you can get protection during outages, more control over your energy bills, and lower home carbon emissions for decades.

As the leading residential solar and energy storage company in the country,⁶ we work to make solar power accessible for homeowners like you. Discover which Sunrun solar plan, with or without battery storage in San Jose, is the best fit for your budget and energy needs.

Pacific Gas and Electric Company (PG& E) has a net energy metering (NEM) program that could let you earn credits on your utility bill for the excess solar energy you produce and send to the grid.⁷ Net metering in San Jose, California may help you save money on your future home energy costs.

Lease new Sunrun solar panels in San Jose for little to \$0 down. Lock in predictable monthly payments and get our industry-leading Sunrun Guarantee.

Own a San Jose home solar system and you could build home value. You may be eligible for California solar incentives, like the federal solar tax credit,^{*} a property tax exclusion, and a solar rebate for battery storage.⁸

Add Brightbox, Sunrun's battery storage service, to your solar installation in San Jose. This can help keep you powered during outages, cloudy days, rainy afternoons, at night, or when Time-of-Use (TOU) rates spike.⁹

Climate change and utility neglect have made wildfires and related outages more common across California.

Electric companies are rolling out Public Safety Power Shutoffs (PSPS), which leave millions of homes without electricity for hours or days at a time.

Brightbox can help you back up your entire home with a Tesla Powerwall, or you can back up just the rooms you need with an LG Chem solar battery.^{**}

Brightbox is the San Jose back-up energy solution that puts you in control. It can turn on during an outage and will work to recharge until the grid's restored.
