With engineering roots dating back to 1991, ib vogt has been specialising in solar project development since 2002. Today ib vogt has over 130 employees worldwide as well as regional partnerships around the globe.

With years of experience in solar engineering and project development, we excel at maximising the clean energy potential of this renewable power technology. For our clients around the globe, we manage the entire downstream section of the solar value chain - from PV component selection and solar financing to project development and operational management.
