Establishment: 1988Headquarter: Zurich, SwitzerlandWebsite: [https://new.abb /](https://new.abb/)

Establishment: 2010Headquarters: Los Angeles, CaliforniaWebsite: <https://>

Chilicon Power LLC designs and manufactures grid-interactive inverter systems and monitoring solutions in Southern California. The company has built the world's highest efficiency 60-cell module inverter. Moreover, it has an extensive product portfolio comprising Microinverter CP-720, Microinverter CP-250E, Cortex Gateway CP-100, Modular Trunk Cabling, and CSIP Aggregator Server CP-1000. Besides this, Chilicon's power inversion and monitoring system technology maximizes PV system production, lowers installer operational costs, and promotes end-user satisfaction.

Establishment: 2006Headquarters: California, United StatesWebsite: <https://enphase>

Enphase Energy Inc. is a leading energy technology company that offers numerous smart solar products, including microinverters, ensemble technology, AC modules, storage, enlighten and apps, envoy and combiner, and accessories that make installations easier. Furthermore, with the launch of Ensemble, which is Enphase's microgrid-forming software technology embedded in its microinverters, the company now has an energy solution for the masses.

Establishment: 2009Headquarters: Jiaxing, ChinaWebsite: [https://apsystems /](https://apsystems/)

Altenergy Power System, Inc. offers solar microinverter technology for residential and commercial systems. Its microinverter solution combines highly efficient power inversion with user-friendly monitoring to provide reliable and sustainable energy. The company broke new ground with the launch of QS1, a cutting-edge microinverter design accommodating up to 450W+ with independent Maximum Power Point Tracking (MPPT) technology.

Establishment: 1985Headquarters: Silicon ValleyWebsite: [https://us npower /](https://us.npower/)

SunPower Corporation is the world's first solar company to earn the prestigious Cradle to Cradle Certified®; Bronze designation for their SunPower®; Maxeon®; panels manufactured in Mexico, France, and the Philippines for environmental stewardship and sustainable manufacturing practices within the facilities. The firm has been leading global solar innovation with more than 750 patents for solar technology.

## Solar micro inverter manufacturers

Its product portfolio includes solar cells, flexible panels, solar battery storage, and solar panels. SunPower is the solar energy choice of many homeowners and businesses globally. The company strives to continue to produce panels as clean as the energy they generate.

Establishment: 1997Headquarters: Taoyuan City, TaiwanWebsite:
