

Solar panel balcony railing

Solar panel balcony railing

Merging innovation and functionality, Mitrex Solar Railing extends energy generation to your balcony. Nestled within its sleek design are high-efficiency solar cells, discreetly placed between layers of robust, heat-tempered glass.

The magic of SolaRail(TM) lies in its ability to integrate BIPV seamlessly into your balcony's aesthetic, with all wiring artfully concealed. Whether it's a new project or a retrofit, SolaRail(TM) turns your balcony into a sustainable energy source.

Opaque o Semi-Opaque o Transparent

SolaRail(TM) is a canvas for your architectural dreams. From the seamless design of the balcony railing to the choice of handrails and posts, customization is key. Whether you desire the simplicity of see-through glass, or a bold color statement, or simply want to incorporate a safe system, Solar Railing is the right fit for you.

Enjoy the best of both worlds without sacrifice--stunning aesthetics and sustainable energy.

When it comes to Solar Railing, installation is as straightforward as it is innovative. From a simple post and cap to a base shoe system, and with wiring ingeniously concealed in the post or handrail-- installation is identical to typical railing systems for a not-so-typical railing.

At the heart of SolaRail(TM)'s design is a commitment to durability and safety. Our railings undergo rigorous impact testing, adhering to stringent ASTM standards, ensuring they stand up to the toughest conditions. This meticulous testing guarantees not only the resilience of each railing but also the long-term durability that our clients expect.

From manufacturing the material to supplying the system hardware, laying out the electricals, design assistance, installation, and even servicing - we've got it all covered.

And because we're not just all talk, we offer a 25-year product and performance warranty. We promise a minimum efficiency of 80% of the original energy generation at year 25, ensuring your balcony railing remains beautiful and efficient, just like the day you first laid eyes on it.
