Solar pool heating companies near me

If you live in a region that experiences heavy wind or snow, solar panels are even weather-tested to handle harsh conditions.

UMA Solar panels are eco-friendly, harnessing clean energy from the sun to heat your pool.

Additional benefits of solar pool heating include:

Solar water heating systems are efficient and reduce the use of fossil fuels, minimizing both your energy costs and your environmental impact. As an added benefit, going solar can make you eligible for federal tax credits and other rebates and incentives in your area.

Our collectors are designed to be used in any environment. Our solar experts will help you select the option that best fits your needs and your budget. Solar collectors designed for domestic water heating (DHW) are made of glass, copper, and insulation. They are designed to quickly heat to high temperatures suitable for bathing, laundry, and dishwashing. However, solar hot water heaters are also adaptable for commercial facilities such as laundromats, medical offices, hotels or restaurants.

Pool heating technology requires thousands of gallons of water be heated to more moderate, comfortable temperatures, which are typically lower than bathing requirements. Thus, this technology is designed to circulate high volumes of water slowly and repeatedly through polypropylene collectors. Solar pool heating technology is similar to the water that is warmed in your garden hose when it sits in the sun; it therefore requires far fewer enhancements than other forms of solar energy. Advantages of our solar pool heating systems include:

The Home Depot offers a salt water chlorination system to automatically balance and control chlorine levels in your pool, giving you and your family more time for swimming and less time maintaining your pool. Some of the benefits of a salt water chlorinator include:

Our highly skilled industry professionals will help you determine the right sized system so you can swim easy in ultimate comfort. Installation is typically just a day so you'll be enjoying your heated pool in no time.

Solar pool supply has been incredible to work with and their product is outstanding. Customer service (Tyler) has been very responsive from discussing my options, shipping & installation. Their warehouse did an outstanding job with the packaging & shipping. The product exceed my expectations. The installation was made easy with their very detailed instructions. I'm in northern Florida and I installed in late November. Our

temps have not been above mid-70s, but it heated my pool from 63 to 68 in one day!!! I'm excited to see the performance in spring. If you are looking for a pool heater, I highly recommend this product / company!!!

Very easy Installation. My neighbor and I completed the installation of 7 panels in less than 2 hours. My pool is warm. When I directed the return only from and to my spa, the temp went from 78-95 in only a couple hours.
