

South africa home energy storage

South africa home energy storage

Midnight Sun, located in Port Elizabeth Eastern Cape, specialise in energy storage systems and intelligent energy management solutions for commercial and high-demand residential customers, through our strategic partnerships with Sofar and Freedom Won.

Sofar's newly released range of three-phase hybrid inverters are set to revolutionize the commercial storage market. Their ability to parallel up to 10 units, giving a maximum of 200 kwp, should find a home in 90% of the commercial and micro/mini grid market.

Freedom Won is a well-established market leader in lithium-ion battery manufacturing. They have spearheaded the development of the proprietary HV battery technology and BMS integration required for Sofar inverters. Available in 40/60/80 kwh packages as a complete plug and play solution. Larger storage available on request.

Our hardware works better with evergen.

More and more homeowners are going solar to reduce their electricity bills and protect the environment for future generations. A battery system allows you to go even further by storing surplus solar generation for use at any time, increasing your savings and providing additional backup power in case of a blackout.

Midnight Sun offers homeowners complete energy storage systems that meet the needs of a wide range of building types and demand profiles. Be part of the energy revolution by installing a battery storage system today.

We are Hanchu Ess, a dynamic force in the energy landscape, dedicated to shaping a green future through innovative digital energy solutions. With over a decade of experience, we stand as a leading Lithium Battery manufacturer, specializing in cutting-edge blade cell solar lithium batteries for residential, commercial, and industrial applications. Our roots extend from China, and we operate a strategic warehouse, Hanchu Energy, in Midrand, South Africa.

At Hanchu, we are at the forefront of providing world-class digital energy integrated solutions. Our focus is on delivering top-notch technology in the form of advanced energy storage systems. Whether you're looking to power your home or drive efficiency in a large-scale industrial project, our specialized solutions cater to diverse needs. We bring a wealth of experience, expertise, and a commitment to sustainability to every project we undertake.

Choosing Hanchu means choosing a trusted partner committed to excellence. We stand out as specialists in lithium battery technology, offering bespoke solutions for a variety of applications. With a proven track record

South africa home energy storage

of delivering over 100,000 sets of advanced energy storage systems worldwide, we showcase reliability and innovation. Our annual production capacity of 8GWh speaks to our commitment to meeting the growing demand for clean and efficient energy solutions. At Hanchu, we're not just providing energy solutions; we're empowering a future where energy is smart, sustainable, and accessible.

Empowering homes and businesses with HANCHU's energy storage solutions. Embracing sustainability and defying loadshedding, our tailored solutions ensure uninterrupted power, keeping you productive when it matters most. Say goodbye to disruptions and experience resilient energy for homes and businesses.

Hanchu ESS can offer a clean energy solution to generate electricity for your home. With superior safety and easy installation, our residential solution is the ideal choice for homeowners to connect to the grid and renewable energy.

Elevate your business with our commercial solar installations. Seize cost savings in the midst of escalating electricity prices and ensure uninterrupted operations with our load-shedding-resistant solution. Demonstrate your commitment to sustainability, and enjoy immediate returns.
