Mount your Delta Controls EV Charging Station AC Mini with ease with this sleek, high-quality 60" EV charging stand post. Made from strong stainless steel, this bollard is built to last. Designed with an internal base plate that allows for a sturdy anchorage, but hides the fasteners to give a modern, seamless appearance.

Give your charging station a modern look. Designed with a tapered top and rounded corners this charging stand post brings a whole new style to how you can mount your EV charging stations. Unlike other charging stands, which often become unsteady after little use due to their two-piece design, this heavy-duty stainless-steel one-piece stand is built to withstand extreme weather and acts of vandalism. The strength of this bollard has been tested to even withstand Category 5 Hurricane winds. Talk with one of our sales representatives today to learn all the different ways this bollard can be customized to fit the needs of your business.
