Sunriver solar northern california

Embark on a greener lifestyle with our residential solar services, offering ...

Experience the ultimate in sustainable living with our residential solar services, ...

Low cost energy solutions tailored to power your home efficiently and reduce your environmental footprint.

Our Residential Solar Services

Empower your journey toward sustainability and energy independence by taking the first powerful step:

Elevate your energy independence with our solar backup battery services, offering a reliable and efficient solution to store excess solar power, ensuring uninterrupted access to clean energy even during grid outages or low sunlight periods.

Our solar service and support ensure a seamless and reliable renewable energy experience, providing comprehensive assistance to optimize system performance and address any maintenance needs, ensuring your sustainable power solution runs smoothly.

Elevate your business operations to new heights of sustainability and cost-efficiency with our commercial solar services, delivering tailored solutions to harness the power of the sun for your commercial endeavors.

Sunriver Solar 1605 Industrial Drive Auburn, Ca 95603

Residential and Commercial solar and storage. EV charger installation. Existing solar troubleshooting, repair, and support. We use state of the art tools to determine the best location for your solar panels including 3D shade analysis to provide you with the perfect solar solution based on your individual needs.

25 years "bumper to bumper". This includes parts, labor, service and roof penetrations.
