## Sunsynk 20kw inverter

Be the first to know about new collections and exclusive offers.

The Sunsynk Three-Phase Hybrid Storage Inverters are powerful and efficient tools designed for managing power in three-phase grid systems. They enable users to manage power from various sources like solar panels, the main electrical grid, and generators, ensuring efficient storage and distribution of electricity. A standout feature of these inverters is their ability to operate and balance loads across phases. This means that even if you distribute the load unevenly, such as 20% on one phase, 20% on another, and 60% on the third, the inverters will still maintain perfect phase rotation.

The Sunsynk 10kW 3-Phase Hybrid Inverter 10K-SG04LP3 is a highly reliable and efficient power management tool for three-phase grid applications. The hybrid inverter allows the simple integration and management of power from solar panels, the main electrical grid and generators. Power can be stored and distributed to your applications as required.

Sunsynk are an internationally recognised inverter and battery storage brand, who are determined to make the planet a cleaner and more sustainable place to live. Sunsynk offer a wide range of high quality products for off grid and on grid systems.

With over 30 distribution warehouses, we offer same day dispatch and next working day delivery across the United Kingdom with all in-stock products.

Free mainland next day\* delivery on all orders over ?100 Ex.VAT. Enjoy free next working day delivery on all orders over ?100 ex.VAT excluding 1m+ & Pallet deliveries. All orders under ?100 will have a delivery cost of ?6.95 Ex VAT.

There are some geographical areas that we are unable to offer next day delivery as standard, such as the Scottish Highlands. We are unable to guarantee next day delivery to the following post codes AB31, AB33-38, AB44-56, IV, HS, KA27-28, KW, PA20-88, PH17-26, PH30-44, PH49-50, TR21-25 and ZE.

We are unable to deliver to the Isle of Scilly, Jersey, Guernsey, Northern Ireland, Isle of Man and the rest of Europe.

DPD Tracking & 1 Hour delivery window. We partner with DPD for all of our deliveries excluding 1m+, fragile, batteries, & pallet deliveries. All DPD items are sent by express tracked next day service with a dedicated one-hour delivery window. On occasion, and to improve your delivery service, we may use alternative courier services.

## Sunsynk 20kw inverter

**Batteries & Fragile Goods** For fragile goods such as batteries, lamps, and light fittings, we try to use a local delivery service where possible. Regardless of the courier, your goods will be thoroughly packaged to ensure they arrive in the best possible order.

**1m+ Length deliveries** Products 1m+ need a special delivery method with a cost of ?35 ex.VAT per bundle. We aim to provide a next working day service for 1m+ deliveries, however, it may take 1-2 working days.

**Pallet Deliveries** Larger products require a pallet delivery in order to safely ship these products to you. Pallet deliveries are ?150 ex.VAT and can take 1-3 working days but, in most instances, arrives in 1-2 working days. We endeavour to keep you updated on your delivery, however, please be advised that this might just be a named day service within normal working hours.
