Texas energy storage trinidad and tobago

(Energy Analytics Institute, 11.Feb.2022) -- Energy briefs including Stuart Young, Trinidad and Tobago's head at the Ministry of Energy and Energy Industries meeting with corporate executives at BP, Shell and Lightsource BP about the Project Lara; and Texas-based Exxon's commenting on carbon capture and storage (CCS); and more.

&#8212; Ecuador's national gov't continues to push for an oil policy that strengthens the country's hydrocarbon value chain through increased production while attracting investments that "generate economic resources for the benefit of Ecuadorians," state owned EP PetroEcuador said 11 Feb. 2022 over social media.

&#8212; ExxonMobil and partners Hess and CNOOC commenced production offshore Guyana at their second development (Liza Phase II). Production from Liza Unity FPSO vessel is expected to reach 220,000 b/d in late 2022, Exxon said 11 Feb. 2022 in an official stmt. The accelerated development will have potential to lift Guyana's production capacity to more than 340,000 b/d seven yrs after a first discovery in Stabroek Block was announced in 2015. At this moment, 3,500+ Guyanese citizens provide support to ExxonMobil's activities in Guyana, the co. said.
