Turkmenistan: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

Turkmenistan''s energy sector has been significantly impacted by the COVID-19 pandemic. Decreased export volumes, economic uncertainty, and restrictions preventing the spread of the virus led to a nearly 5% decrease in energy demand in 2020. However, the demand is expected to rebound and to surpass prepandemic levels in 2022.
