DOE's Clean Energy Corps is comprised of the staff from more than a dozen offices across DOE--current staff and new hires--all working together to research, develop, demonstrate, and deploy solutions to the world's greatest challenge. The Clean Energy Corps is a diverse group of talented individuals committed to public service and with a mission of supercharging the clean energy revolution. This is YOUR opportunity to join us in making that future a reality. Regardless of whether you are new to clean energy, or have been doing this work for years--we want YOU as part of our Clean Energy Corps.

DOE is collecting applications for candidates interested in becoming part of the Clean Energy Corps via USAJOBS. DOE also conducts recruitment campaigns using the USAJOBS Agency Talent Portal to connect with job seekers and invite them to apply on our job openings.

To ensure your resume is searchable in the USAJOBS Agency Talent Portal, follow the specific guidance in USAJOBS Help Center.

As the largest funder of clean energy technology in the country, DOE has led the way on the innovations that have brought us the wind, solar, and energy efficient technology we know today. Now, with the investments from the Bipartisan Infrastructure Law, DOE's Clean Energy Corps will be able to do even more. With a focus on deploying next generation clean energy technology, the Clean Energy Corps will help America meet its goals of a carbon-free power sector in 2035 and a decarbonized economy in 2050. But we can't do it without YOU.

Us green energy corp

The Clean Energy Corps is hiring NOW. We need talented, diverse, kind, and hardworking people like you to join this team.
