

Victorian government gas heater replacement

Victorian government gas heater replacement

By replacing old heating and cooling systems with more energy-efficient ones ...

Most homes will be eligible for a rebate of approximately \$120. Read more. ...

Transform your home into a more comfortable, eco-friendly, and budget-conscious space with the Victorian Energy Upgrades program.

We're excited to offer new financial incentives for upgrading from inefficient gas or electric heaters and air conditioners to efficient reverse cycle systems, including ducted, split systems, and multi-split systems.

Seize the chance to transform your home into a more comfortable, eco-friendly, and budget-conscious space with the Victorian Energy Upgrades program. Receive up to \$10,290 off when you upgrade your heater or air conditioner to the latest reverse cycle technology. Act now and experience the rewards of a sustainable and cost-effective heating and cooling solution.

Enjoy both heating and cooling capabilities for comfort in all seasons.

Save on energy bills by transferring heat instead of generating it.

More energy efficient and can be powered by your solar panels for a more environmentally friendly choice.

Customise comfort and save energy by heating or cooling only occupied spaces.

Rebates of up to \$10,290 are now available through the Victorian Energy Upgrades program to upgrade your heating & cooling!

Suitability and functionality varies between products, so research your options carefully to find the perfect fit.

Perfect for multiple rooms or whole-home comfort
