FREE Delivery is available to Prime members. To join, select "Try Amazon Prime and start saving today with FREE Delivery" below the Add to Cart button and confirm your Prime free trial.

Important: Your credit card will NOT be charged when you start your free trial or if you cancel during the trial period. If you're happy with Amazon Prime, do nothing. At the end of the free trial, your membership will automatically upgrade to a monthly membership.

Explore Victron, with 45 years of expertise. Our solutions seamlessly balance quality and affordability, delivering reliable power without compromise. Trust our family-run business for dependable global network and solutions that exceed expectations. Our skilled Victron Professionals ensures rapid, proficient assistance. For Energy. Anytime. Anywhere.

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.

The Lynx Smart BMS is a dedicated Battery Management System for Victron Lithium Smart Batteries. There are multiple BMS options available for Victron Smart Lithium series of batteries, and the Lynx Smart is the most feature-rich and complete option.

This is the M10 version of the Lynx Smart BMS that has a maximum current rating of 1000 amps (up to 60 volts) - there is also an M8 version. The difference is the size of the holes/connections on the main bus bars (M8/5/16? or M10 /3/8?) where you connect (bolt-on) additional Lynx system products such as additional Lynx Distributors or a Lynx Smart BMS. The terminals inside the Distributor are M8 (5/16?) on both versions to accept standard hole-size mega fuses.

We offer fast, FREE shipping on most Victron Energy products - including batteries and inverters! FREE shipping on Victron batteries. Small cables/adapters ship for a flat-rate of \$5. These promotional shipping rates are for customers in the continental USA only.

The Lynx Smart BMS is part of the modular Lynx Distribution system. For instance it can be paired with a Lynx Power In and a Lynx Distributor as shown in the diagram below. The Lynx Smart BMS can be wired up to a Lynx Distributor to monitor the condition of the fuses (wires included with the Lynx Distributor) all of which can be seen via Bluetooth with the VictronConnect app.

Our customers love us and we think you will too! But, don't take it from us, check out our reviews.
