With over 8000 cycles of lithium iron phosphate rechargeability, this battery lasts five times longer than traditional lead-acid batteries.

Not only does it have an impressive lifespan, but it also comes with an automatic Battery Management System (BMS) to protect against overcharging, discharging, and extreme temperatures.

It's safe and environmentally friendly, with no risk of thermal runaway or acid leakage. With a 10-year warranty and dedicated customer support, the WEIZE lithium battery is the perfect upgrade for all your energy storage needs.

When it comes to deep cycle batteries, the WEIZE 12V 50Ah Lithium LiFePO4 Battery is a top choice that offers numerous benefits.

This product is designed to last, with a lifespan of over 2000 cycles at 100% discharge or 8000 cycles at 50% discharge. In comparison, traditional lead-acid batteries typically only last about two years, or around 500 cycles at just 50% discharge.

One of the key features of the WEIZE battery is its built-in Battery Management System (BMS). This system acts as a protective shield, guarding against overcharging, over discharging, overcurrent, short circuiting, and extreme temperatures.

With the BMS in place, you can have peace of mind knowing that your battery is well-protected and its performance and lifespan are optimized.

The BMS ensures that the battery automatically cuts off when necessary and reactivates after one second, eliminating the need for a higher voltage input to restart.

The WEIZE 12V 50Ah Lithium LiFePO4 Battery is built to last, with a lifespan of over 2000 cycles at 100% discharge or 8000 cycles at 50% discharge.

This longevity far surpasses that of traditional lead-acid batteries, making it a cost-effective choice for
