

Wholesale off grid battery storage

Wholesale off grid battery storage

As a Tier 1 wholesale solar distributor, PowerStore, Inc. offers a wide range of ...

Grid-tied solar power systems are usually installed as a means to reduce energy ...

Grid-Tie + Storage Systems; Bundles; Off Grid Systems; Shop All; Grid-Tie. Grid ...

At PowerStore, Inc., we carry commercial-grade equipment from the top names in ...

Address: No.900, Zhujiang Road, SND, Suzhou City, Jiangsu Province, PRC

The Enphase IQ Battery Energy Storage System is a powerful, modular, and affordable energy storage solution that integrates seamlessly with Enphase microinverters and other solar technologies. It offers high performance with 96% round-trip efficiency, two cycles per day, and 100% usable capacity, while ensuring safety and reliability through its lithium iron phosphate chemistry and UL 9540 certification. [View All Enphase IQ Batteries and Accessories](#)

The SolarEdge Home Battery and Backup system offers an efficient and reliable energy storage solution that integrates seamlessly with the SolarEdge Home Hub inverter. With a capacity of 9.7 kWh per battery and the ability to provide 5 kW of continuous power and 7.5 kW peak power, this system ensures uninterrupted power supply even during extended grid outages. The DC-coupled technology allows for up to 200% DC oversizing, resulting in increased energy savings, while the SolarEdge Home Rate Saver configuration optimizes the system for markets under the NEM 3.0 program in California. The HomeGrid Stack'd Series is a powerful, modular, and scalable advanced LFP battery storage solution designed for residential and small commercial projects. With an impressive output of up to 14.4 kW continuous power and a 24 kW surge capacity, the Stack'd Series can handle the energy needs of an entire home or business, including power-hungry appliances. The modular design allows for easy installation and expandability, with a capacity range from 9.6 kWh to 38.4 kWh per Stack and the ability to connect up to 15 units in parallel for a total capacity of 576 kWh. [Learn more about the Homegrid Stack'd Series!](#)

SimpliPhi Lithium-Ion Batteries are deep-cycle Lithium Ferro Phosphate (LFP) batteries designed for reliable and rugged integrated energy storage in both on-grid and off-grid applications. The PHI 3.8 battery models, available in 24V and 48V configurations with a capacity of 3,800 Wh, are non-toxic, maintenance-free, and compatible with all industry-standard inverters and charge controllers. These batteries offer a long lifespan of up to 10,000 cycles at 80% depth of discharge, high efficiency, and a broad operating temperature range from -4 to 140°F, making them suitable for use in various climates and settings, including homes, businesses, and

Wholesale off grid battery storage

RVs. Learn More About Simpli Phi Lithium Ion Batteries

Our on-grid and off-grid solar battery backup systems are ideal for home battery storage, solar battery backup and solar energy storage. Some battery storage systems are designed to use your existing grid-tied solar system as an inverter/charger battery backup system during emergency power outages with auto generator assist available.

Contact us toll-free at (877) 297-0014 for design assistance, free quote, contractor & dealer discounts.

Designed to provide Full/partial backup battery power for homes and small-mid size commercial storage systems.
