Wholesale & Distribution

Ryse Energy is a primary manufacturer of small wind turbines, with our range of products from 3-60kW capacity, making our portfolio of wind technology the most advanced, innovative diverse in the sector.

Each solar PV system we offer is custom-configured to the unique requirements of the site, incorporating solar PV panels and power inverters. The Ryse team have installed more than 300 roof and ground-mounted installations in a variety of sizes from residential to multi-MW systems. These solutions can be for both on-grid and off-grid energy systems.

As an advanced small-wind turbine manufacturer and technology supplier of world-leading solar PV and battery storage, we believe hybrid renewable energy systems are the future of energy. With the combined energy sources of solar PV and wind, a hybrid renewable on-grid or off-grid energy system is more effective at meeting the demand requirements of a system running 24-hours.

This WindSoleil Hybrid Kit helps you get off the grid and provide your own electricity. Great for Cabins, Tiny Homes, Small Greenhouses, Lodges, etc. [Batteries Included]
